DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 6, 10, 11, and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Campen (4606305).

Figure 1 shows the recited magnet 53, shoes 51, counterweights being the oppositely located fins, the flywheel is disclosed as being of cast iron, and is disclosed as being used with small engines which meets the very broad desired use recitation in claim 13 of "machine or the like".

Claims 1-3, 6, 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Burson (4179634).

Figures 1-8 shows the recited magnet 25, shoes 30,35, counterweight 55, vanes 45, and a body of cast aluminum (col.2, lines 33-35).

Claim 13 should be cancelled in so far as it is merely a statement of intended use and "or the like" is vague.

Allowable Subject Matter

Claims 4, 5, and 7-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
